

Starlink Investigation

Prepared by Mike · Research assistant: Claude (AI, Anthropic) · Work in progress, October 2026

Objective – to undertake extensive investigation into Starlink and to produce a professionally structured document which records all the findings from the investigation. The document should be finalised in two forms:

1. A detailed academic style paper with all references for academic consumption
2. An all-reader consumer friendly shorter version for popular consumption (magazine-style article)

To find out:

1. What is Starlink
2. What are the technologies used in Starlink
3. Does Starlink create an independent internet of the sky
4. Do Starlink satellites have independent compute power
5. How is Starlink controlled
6. How is Starlink switched on and off in different areas
7. Does Starlink provide connections to support various military operations
8. Is Starlink connected to or controlled by Grok
9. What is the history of Starlink being used in conflict situations
10. What are potential dangers and assessment of their potential impact and order of severity.
11. What actions are necessary (if any) to reduce any potential dangers – in order of urgency.
12. Points for discussion – lessons from
 - a. Trojan Horse
 - b. Dr Strangelove – including reference to weapons in space
 - c. Other risks
13. Appendix – unresolved issues
